## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

1. Claims 7-12, 14 and 16 are rejected under 35 U.S.C. 102(e) as being anticipated by Buchanan et al-6,074,418.

As to claims 7-12 and 16, Buchanan-'418 (Figs. 2-3, for example) discloses every limitations as recited in the claims such as prosthesis 12, connector and spiral fastener assembly 40, drive member 44&46 (please, refer to reproduced Fig. 2-3 on next page).

As claim 14, due to heat expansion coefficient of prosthesis material, prosthesis 12 will self expand when a heat source is provided.

2. Claims 7-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Tanner et al-5,957,940.

As to claims 7, 13, 15, Tanner-'940 (Figs. 5, 29-30, 33-36; col. 9, lines 15-25) discloses a spiral/coil fastener 530 carried by connector 535 or 450 for fastening a distal graft assembly 20 having a self-expandable stent 30 to a tissue wall 2.

**FIG. 35****FIG. 36**

Art Unit: 3734

3. Claim 14 is rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Tanner et al-5,957,940.

Tanner-'940 (col. 9, lines 15-25) discloses stent 30 self expands to engage a local tissue but does not explicitly disclose the stent self expands thermally. However, a stent made of any material, will self expand by heat (expansion by heat effect), especially a stent of a nitinol, which is a well known material for a stent to self expand upon receiving a heat source. Alternatively, it would have been obvious to one of ordinary skill in the art to make stent 30 of a thermally expandable nitinol so that stent 30 can self expand to engage a local tissue.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
